DUE: NOVEMBER 15 2023 AND APRIL 15 2024

AUX# _____ CHAIRMAN _____ PHONE _____ GROUP _____

The responsibility of the Chief of Staff is to assist the Dept. President with special emphasis on failing and weak Auxiliaries and Districts. We want to mentor, train, and recruit new members for those Auxiliaries that are in need of help and bring them back into good working order.

The National Headquarters offers several resources that help identify and solve common problems and issues. There you will find every resource you could ever need, including the following: RU Healthy Checklist, Five (5) Essentials of an Auxiliary, Healthy Auxiliary Member Questionnaire, Auxiliary Meeting Clinic, Healthy Communications, Good Job Certificate/Card, Healthy Certificate, and Mentoring Resources.

We need to utilize media outlets such as newspapers, radio stations, social media, etc. to increase interest from our communities to help our Auxiliaries and VFW Posts grow. We will make presentations to Unaffiliated VFW Posts about the benefits of having an Auxiliary and what needs to be done. We will work on building and strengthening the Auxiliary through membership training and mentoring.

We will train and work closely with the District Presidents so they can recognize red flags that may lead to problems in an Auxiliary. I will want the District Presidents to reach out to their Auxiliaries periodically and report back to the Department President and Chief of Staff. If we are to assure all our Auxiliaries are healthy and successful, the District Presidents must be honest in their Visit Reports and let us know if an Auxiliary might need a little extra help. The Auxiliary Presidents are also going to get some extra training on their duties and how to handle certain situations. Throughout this year I will share many ways to engage and mentor members, to become a strong and healthy Auxiliary, and assist with growing our organization.

STANDING STRONG FOR VETERANS
